

"My husband & I had our first dining experience at your restaurant this past weekend (November 6, 2010) and I wanted to share with you our delight! I have wanted to try your restaurant for quite some time, but we have two children aged 3 and 5. Fine dining is not a fun experience with them, as you can imagine. This past weekend my husband and I were in Fargo by ourselves so I insisted we try Santa Lucia. I LOVED EVERYTHING about the experience!!! We had a great waitress, the food was outstanding. The wine was superb and the bathroom (ladies room) was very elegant! My only complaint was that I was so full from my appetizer, wine and dinner that I was unable to try either the baklava or the cannoli and due to the unseasonably warm weather, I was unable to take them to go! I was thrilled to find a vegetarian combination entree. What a treat in North Dakota!!! Your Greek wine that has flavors of golden raisins and honey was AWESOME! Please know that I will return to your restaurant. I have already suggested it to several of my friends in Jamestown."
